FARSANA FATHIMA NA

Data Analyst

Muscat, Oman | +968 9498 8610 | farsanafathima393@gmail.com

SUMMARY

Aspiring Data Analyst with knowledge of Advanced Excel, Power BI, Tableau, and SQL. Skilled in data cleaning, transformation, dashboard creation, and data visualization using Power Query and DAX. Passionate about transforming raw data into meaningful insights to support data-driven decision-making.

SKILLS

Advanced Excel, Power BI, Tableau, SQL, Python, MS Office

EDUCATION

Master of Technology - Computer Science	APJ Abdul Kalam Technological University	2024 - 2026
Bachelor of Technology - Computer Science	APJ Abdul Kalam Technological University	2020 - 2024

PROFESSIONAL EXPERIENCE

Data Analyst Trainee – Rows and Columns, India **Feb 2026 - Jun 2026**

- Completed advanced training in Microsoft Excel, SQL and Power Query, applying data cleaning, validation, and transformation techniques to multi-source business and financial datasets.
- Developed executive-style reports using charts, trend and variance analysis, and applied analytical skills to real-world business and finance case studies under deadline-driven scenarios.

Data Analytics Trainee - Voleergo Solutions, India **May 2025 - Jun 2025**

- Developed interactive Power BI dashboards to monitor business performance KPIs, using optimized SQL queries for data extraction, transformation, and analysis to support cross-functional reporting.
- Built structured data models with calculated columns and DAX measures, improving reporting efficiency and streamlining recurring dashboard updates.

KEY PROJECTS

Sales Analysis | Power BI, SQL, Excel

- Imported sales datasets into SQL, performed data cleaning, validation, and transformation, and integrated processed data into Power BI for data modelling and dashboard development.
- Implemented DAX measures, KPI indicators, and interactive visualizations to monitor sales, revenue, profitability, and business performance, streamlining reporting and supporting data-driven decisions.

Payroll Analysis | Power BI, Excel

- Cleaned, validated, and transformed payroll datasets using Advanced Excel functions and formulas before integrating the processed data into Power BI.
- Developed interactive dashboards using data modelling, DAX measures, and KPI visualizations to analyse payroll costs, employee compensation, overtime, and departmental expenditure across 130 employees.

Project Performance Analysis | Power BI, Excel

- Imported project datasets into SQL, performed data cleaning and transformation, and integrated structured data into Power BI for data modelling and dashboard development.
- Implemented DAX measures, KPI cards, and interactive visualizations to monitor 1,836 projects across six lifecycle stages, tracking financial progress, billing status, project performance, and project risks.

DECLARATION

I declare that the information given above is true to the best of my knowledge.
